**(d)(2)      POLICY**

Online training for cardiopulmonary resuscitation (CPR) and first aid is permitted. Currently a hands-on practice component is not required; however, it is recommended that any online training that has a skills competency component, e.g. First Aid and CPR, include a hands-on practice component. The hands-on practice component would increase the confidence level of the participant and consequently augment staff's ability to perform their job duties. The hands-on practice component should be provided and overseen by an on-site instructor and address skills appropriate to the children served.

**(d)(3)      POLICY**

For information regarding online training please refer to Regulation Interpretations and Procedures for Transitional Housing Placement Programs Section 86075(d)(2).
